<b>Hybrid RANS-LES Modelling: How to Proceed? The Round Table Forum Discussion</b> .....	1
<i>Minuted and compiled by C. Mockett</i>	
 <b>Invited Keynote Papers</b>	
<b>Reflections on RANS Modelling</b> .....	7
<i>P. Spalart</i>	
<b>Flow Modelling in Aircraft Design – An Engineering Perspective</b> .....	25
<i>M. Sillén, E. Amundsson, S. Arvidson, I. Persson, M. Sätterskog</i>	
<b>Investigation of Practical Flow Control Methodologies with RANS/LES Hybrid Methods</b> .....	41
<i>S. Fu, Z.X. Xiao, J.B. Huang, Y.F. Zhang</i>	
<b>Advanced DES Methods and Their Application to Aeroacoustics</b> .....	59
<i>U. Michel, D. Eschricht, B. Greschner, T. Knacke, C. Mockett, F. Thiele</i>	
 <b>DES Modelling Approach and Its Variants</b>	
<b>Detached-Eddy Simulation of Supersonic Separated Flows</b> ...	77
<i>V. Togiti, M. Breuer, J. Longo</i>	
<b>Evaluation of Time Sample and Span Size Effects in DES of Nominally 2D Airfoils beyond Stall</b> .....	87
<i>A. Garbaruk, S. Leicher, C. Mockett, P. Spalart, M. Strelets, F. Thiele</i>	

<b>Initial RANS and DDES of a Rudimentary Landing Gear ...</b>	101
<i>P. Spalart, M. Shur, M. Strelets, A. Travin</i>	
<b>Detached Eddy Simulation of Turbulent Flow in a Highly Offset Intake Diffuser .....</b>	111
<i>M. Chevalier, S.-H. Peng</i>	
<b>DES for UCAV Weapon Bay Flow .....</b>	123
<i>S.J. Lawson, G.N. Barakos</i>	
<b>Control of the Unsteady Flow Inside the SOFIA Telescope Cavity by Means of a Porous Fence .....</b>	137
<i>S. Schmid, Th. Lutz, E. Krämer</i>	
<b>Zonal-Detached Eddy Simulation of a Civil Aircraft Engine Jet Configuration .....</b>	147
<i>V. Brunet, S. Deck</i>	
<b>Assessment of DES on the Flow after a Snow-Flake Orifice .....</b>	157
<i>H.W. Zheng, F.C.G.A. Nicolleau, N. Qin</i>	
<b>Detached-Eddy Simulations Applied to Unsteady Crosswind Aerodynamics of Ground Vehicles .....</b>	167
<i>T. Favre, B. Diedrichs, G. Efraimsson</i>	
<b>Destabilizing Free Shear Layers in X-LES Using a Stochastic Subgrid-Scale Model .....</b>	179
<i>J.C. Kok, H. van der Ven</i>	
<b>Prediction of Transonic Buffet around a Wing with Flap .....</b>	191
<i>G. Barbut, M. Braza, Y. Hoarau, G. Barakos, A. Sévrain, J.B. Vos</i>	
 <b>Non-DES Type Hybrid RANS-LES Modelling Approaches</b>	
<b>RANS/LES Simulation of a Separated Flow in a 3D Curved Duct .....</b>	205
<i>I. Mary</i>	
<b>A New Partially Integrated Transport Modelling (PITM) Method for Continuous Hybrid Non-zonal RANS/LES Simulations .....</b>	213
<i>B. Chaouat</i>	
<b>A Hybrid RANS-LES Model Based on Temporal Filtering .....</b>	225
<i>A. Fadai-Ghotbi, C. Friess, R. Manceau, T.B. Gatski, J. Borée</i>	

Contents	XI
<b>Scale-Adaptive Simulation with Artificial Forcing</b> . . . . .	235
<i>F.R. Menter, A. Garbaruk, P. Smirnov, D. Cokljat, F. Mathey</i>	
<b>RDDES for Strong Shock-Wave/Boundary Layer Interaction</b> . . . . .	247
<i>A. Shams, P. Comte</i>	
<b>Hybrid RANS/LES of Plane Impinging Jets with <math>k-\omega</math> Based Models</b> . . . . .	261
<i>S. Kubacki, E. Dick</i>	
 <b>LES Modelling Approaches</b>	
<b>Large Eddy Simulations: Wall Functions with Forcing Given by Backscatter from a Scale-Similarity Model</b> . . . . .	271
<i>L. Davidson</i>	
<b>LES of the Non-isothermal Flow in Rotating Cavity</b> . . . . .	283
<i>E. Tuluszka-Sznitko, A. Zielinski, W. Majchrowski</i>	
 <b>Comparison of Different Modelling Approaches</b>	
<b>Turbulence Modelling for Supersonic Separated Flows</b> . . . . .	293
<i>A. Shams, P. Comte</i>	
<b>Evaluation of Hybrid RANS-LES Models in Ventilated Enclosures</b> . . . . .	305
<i>F. Brännström, D. Müller</i>	
<b>Experimental and Numerical Investigation of Transonic Bump Flow</b> . . . . .	315
<i>J.-C. Huang, G. Barakos, E. Benard, G. Barbut, Y. Hoarau, M. Braza, P. Derian</i>	
<b>Comparison of Hybrid RANS-LES Calculations within the Framework of Compressible and Incompressible Unstructured Solvers</b> . . . . .	329
<i>K.A. Weinman, M. Valentino</i>	
 <b>EU Projects in relation to hybrid RANS-LES Approaches</b>	
<b>Description of Test Section and Measurement in a Nozzle for Shock Upstream Mach Number <math>M=1.45</math></b> . . . . .	339
<i>P. Doerffer</i>	

<b>UFAST Project – Unsteady Effects in Shock Wave Induced Separation</b> .....	345
<i>P. Doerffer</i>	
<b>From FLOMANIA via DESider to ATAAC</b> .....	349
<i>W. Haase, D. Schwamborn</i>	
 <b>Short Communications</b>	
<b>Scrutinizing a Seamless Hybrid LES/RANS Approach for Turbomachinery Applications</b> .....	353
<i>D. Borello, G. Delibra, K. Hanjalic, F. Rispoli</i>	
<b>Turbulent Flow Modeling via Galerkin Method and Finite Time Thermodynamics</b> .....	357
<i>M. Morzyński, B.R. Noack, M. Schlegel, G. Tadmor</i>	
<b>Author Index</b> .....	359
